(Cancer Cell 14, 408–419; November 4, 2008)

It has come to our attention that there was an error in the assembly of Figures 3C, 6D, and S6B of our study on the importance of IL-1 $\beta$  for gastric carcinogenesis, resulting in the inclusion of incorrect representative FACS plots in these figures. We have now corrected these figures with correct representative FACS plots. Importantly, we note that the error has no bearing on the conclusions of the study, and we can only apologize for any inconvenience caused by our oversight.
